

DINESH RAMAR

Frontend React.js Developer | 4+ Years Experience

Chennai, India | +91 78268 02550 | dineshramar413@gmail.com | linkedin.com/in/dinesh-ramar | github.com/dinesh-ramar

PROFESSIONAL SUMMARY

Frontend React.js Developer with **4+ years of experience** building responsive, scalable, and accessible web applications for **banking and financial services clients**. Skilled in React.js, JavaScript, TypeScript, HTML5, CSS3, Redux Toolkit, and REST API integration. Improved frontend performance through code splitting, lazy loading, and React.memo, while ensuring strong accessibility and VAPT security compliance. Experienced in building modular UI components and collaborating with Agile teams to deliver secure, production-ready applications. Immediate Joiner.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Bootstrap, Tailwind CSS, Responsive Web Design

State Management: Redux Toolkit, Redux, Context API

React & Build Tools: React Hooks, React Router, React Query, React.memo, Custom Hooks, Vite, Webpack, npm

API & Version Control: REST APIs, JWT Authentication, Fetch API, Axios, Git, GitHub

Quality & Security: WCAG 2.1 AA, Lighthouse, Web Performance, Cross-Browser Compatibility, VAPT Remediation

Development: CI/CD, Agile Scrum, Code Reviews, Drupal CMS

Currently Learning: Next.js, Jest, React Testing Library

PROFESSIONAL EXPERIENCE

Executive Developer | Xerago, Chennai – Dec 2021 – Jan 2026

- Engineered **10+ React.js modules** for enterprise banking applications, building reusable UI components that improved development speed and code maintainability.
- Reduced JavaScript bundle size by 25% through code splitting, lazy loading, and React.memo/useMemo optimizations, improving page load speed and user experience.
- Achieved **90+ Lighthouse Accessibility** scores by implementing WCAG 2.1 AA, semantic HTML, ARIA attributes, and keyboard navigation.
- Completed **90% VAPT remediation** before production releases, ensuring compliance with banking security and application standards.
- Connected **7+ secure REST APIs** using JWT token-based authentication to deliver secure customer data and banking workflows.
- Strengthened code quality through Git, code reviews, and CI/CD, contributing to a **30% reduction** in production issues.

PROJECTS

Ujjivan Small Finance Bank – Digital Banking Portal

Tech: React.js · Drupal CMS · JavaScript · HTML5 · CSS3 · Bootstrap

- Modernized 50+** pages of the bank's website, improving Lighthouse Accessibility and SEO performance while replacing an outdated customer experience.
- Implemented shared React.js components and secured REST API integration, aligned with the bank's accessibility and compliance standards.

Employee Workforce Analytics Dashboard

Tech: React.js · TypeScript · React Query · Context API · REST APIs

- Designed a real-time workforce dashboard that enabled managers to track **150+ employees** by work status, due dates, and task progress.
- Leveraged React Query and existing components to deliver faster dashboard updates, enabling managers to monitor employee progress more efficiently.

Xerago Website & AI Platform Migration

Tech: React.js · Redux Toolkit · JavaScript · Tailwind CSS

- Migrated the corporate website from a traditional frontend architecture to React.js, supporting the company's transition from .com to .ai.
- Created **25+ scalable UI components**, enabled AI-driven content workflows, and improved website performance through asset optimization and on-demand component loading.

EDUCATION

Bachelor of Commerce (B.Com) | Sri Kaliswari College, Sivakasi

Jun 2017 – Sep 2020
