## Professional Summary

Frontend Developer and UI Engineer with 4 years of experience building scalable, high-performance web applications using React.js, JavaScript (ES6+), TypeScript, HTML5, and CSS3. Strong in component-based architecture, REST API integration, responsive UI, and Web Content Accessibility Guidelines (WCAG 2.1 AA) compliance. Experienced working in Agile/Scrum teams, delivering production-grade UI in Content Management System (CMS) driven applications including Drupal and Docusaurus.

## Technical Skills

**Frontend:** React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS

**React Core:** React Hooks (useState, useEffect, useMemo, useCallback), React Router, Context API, Redux

**Frameworks / CMS:** Docusaurus, Drupal (Theming, UI Customization)

**API & Data:** REST APIs, Axios, Fetch API

**UI & Performance:** Responsive Design, Accessibility (WCAG 2.1 AA), Performance Optimization, Cross-browser Compatibility

**Tools & Workflow:** Git, GitHub, npm, Vite, Webpack, Chrome DevTools, Agile, Scrum

## Professional Experience

**Frontend Developer** - Xerago, Chennai

Dec 2021 - Present

- Built and maintained React-based UI modules used across enterprise platforms, supporting 100,000+ monthly users.
- Developed 30+ reusable UI components using React Hooks, reducing duplicate code and improving development speed by approximately 25%.
- Integrated REST APIs using Axios and Fetch API with proper loading and error handling, reducing UI failures by around 40%.
- Improved frontend performance by 20-30% through component optimization, refactoring, and reducing unnecessary re-renders.
- Improved accessibility compliance (WCAG 2.1 AA), increasing Lighthouse accessibility scores from 70 to 90+.
- Developed blog and documentation pages using React.js with Docusaurus for enterprise content platforms.
- Customized Drupal themes and improved responsive layouts, reducing mobile UI defects by 35%.
- Collaborated with backend and Quality Assurance (QA) teams in an Agile/Scrum environment to deliver 20+ stable production releases.

## Key Projects

### Xerago Blog Platform (React + Docusaurus)

Tech: React.js, Docusaurus, JavaScript, HTML5, Tailwind CSS

- Built responsive blog and documentation UI using React and Docusaurus.
- Improved initial page load performance by approximately 25% through asset optimization.

### SaaS Admin Dashboard (Personal Project)

Tech: React.js, TypeScript, Tailwind CSS, Vite

- Developed a role-based admin dashboard with protected routes and API-driven UI.
- Optimized component rendering using React Hooks and TypeScript, reducing unnecessary re-renders by 30%.

### Enterprise Banking Websites (Drupal)

Tech: Drupal, HTML5, CSS3, JavaScript

- Developed responsive UI components and customized Drupal themes for banking portals.
- Improved cross-browser compatibility and reduced UI defects by 40%.

## Education

**Bachelor of Commerce (B.Com)** - Sri Kaliswari College, Sivakasi

May 2020
